Subject: Coventry & District League 2020

Dear Secretary,

Throughout the ongoing situation with the Covid-19 pandemic we have kept a close eye on the recommendations and advice that has been coming from both Government and BCGBA and the impact this has on health & safety throughout both society and within the Crown Green Bowling community.

Whilst we have recently moved into phase 2 of the revised Government advice on the relaxation guidelines it is still unclear at which point in the future it could be possible to return to any form of competitive Bowling.

Therefore taking into account all information that is available to us we have made the very difficult decision to cancel the Coventry & District League & Cup season for 2020 and all Leagues will be rolled over to the 2021 Season.

We had looked into several ways that bowling could be made possible but with no clear plan on when we could safely return there was unfortunately no other option available to us. We also reviewed the current situation at many Clubs, some have already opened within the guidelines others currently have no visibility on when they will safely be able to resume bowling, these combined with the continued shielding of many of our members are also contributing factors.

Whilst this a very difficult and disappointing decision I am sure that you will all be understanding of our position, ultimately the health & safety of all our members and families is imperative.

Yours sincerely,

Martin Dobson

Martin Dobson
